AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-22 (Cancelled)

Claim 23-44 (Cancelled)

45. (New) A method for treating an autistic individual exhibiting a lack of toilet training and characterized by an abnormally low fecal chymotrypsin level using digestive enzymes, the method comprising the step of administering an effective amount of digestive enzymes to the individual.

46. (New) The method of claim 46, wherein the administering of digestive enzymes further comprises administering a tablet of digestive enzymes with each meal comprising approximately 4,000 to approximately 60,000 U.S.P. Units/tablet on a daily basis.

47. (New) The method of claim 46, wherein the digestive enzymes comprise a pancreatic enzyme.

48. (New) The method of claim 46, wherein the digestive enzymes comprise lipase, amylase, protease, cellulose, sucrase, or maltase either singularly or in any combination thereof.

49. (New) The method of claim 46, wherein the effective amount of digestive enzymes is administered with each meal on a daily basis, and said effective amount is determined according to the age and weight of the individual.

50. (New) The method of claim 46, wherein the digestive enzymes are administered at least three times per day.
